Insulated Roller Garage Doors

Insulated Roller Doors

Insulated roller doors are an ideal solution for people who want to improve the appearance of their home and gain space in their garage.

The doors open vertically with no tracking intruding into the garage space and with no 'kick out' as per up and over doors, you can park right up to the outside of the door on your driveway.

In-built automation gives you the luxury and convenience of remote control as standard.

As the doors are made from insulated aluminium profiles, they provide a thermal and acoustic barrier, helping to control your energy bills, reduce noise and possibly your carbon footprint.

Safety

Fully compliant and certified with all safety regulations our doors feature the Somfy Rollixo control unit with a reliable safe edge system, inertia activated anti-drop safety brake and full hood to prevent entrapment at the door top.

Security

Awarded the Secured by Design Police Preferred Specification, giving you peace of mind that your new garage door is secure.

Powdercoat Finish - Low Maintenance

Sixteen standard stunning colours to choose from including popular Rosewood and Golden Oak to complement UPVC windows and doors. We always colour match our guide rails and headbox to the chosen door colour, however wood effect finishes are supplied in Mocca Brown as standard. It is possible to colour match for a small surcharge if required.

White RAL 9016	Cream RAL 9001	Home Cream RAL 1015	Anthracite Grey RAL 7016	Mocca Brown RAL 8019	Rosewood
Burgundy RAL 3004	Blue RAL 5011	Racing Green RAL 6009	Black RAL 9011	Chartwell Green BS 14 C 35	Golden Oak
Ruby Red RAL 3003	Moss Green RAL 6005	Silver RAL 9006	Graphite	Irish Oak	Duck Egg Blue

N.B. Accuracy of colours shown is limited by printing process.

Specifications

Safety Cover

Supplied as standard, protects the user from accidental entrapment and provides an attractive finish to the interior of the door.

Anti-drop Brake

Inertia activated anti-drop safety brake to arrest the door curtain if mechanical motor failure occurs.

Emergency Override

A connector and crank handle are supplied as standard, so your door can be opened from inside, even during a power cut.

Guide Rails

Guide rails made from 70 or 90 mm wide extruded aluminium profile with a powder coated finish.

Safety Edge

Supplied as standard. At the bottom edge of your door is an emergency sensor which will stop and reverse when it senses an obstruction.

Somfy Rollixo RTS Control Unit

With an integrated courtesy light, front panel door controls and 90dB intruder protection alarm which activates if someone attempts to lift the door from outside.

Security

When the door is in the closed position the strong nylon/spring steel clamps and motor hold the door down tight. These spring clamps are attached to ellipsed rings which provide smoother opening and closing as well as reducing the noise of the door as it operates.

Weather Seal

Incorporated into the bottom slat is a deep malleable rubber seal which closes tight to the floor and accommodates most floor imperfections.

Lighting Bar

Our Welcome Home or Deluxe lighting packs are available for that final finishing touch to your garage door installation.

Insulated

The insulated aluminium profiles provide a thermal and acoustic barrier, which could reduce your energy bills, and provide noise reduction.

Accessories

To further enhance day to day use of your door we have a variety of optional accessories.
